Profile Summary

I am a passionate and results-driven full-stack web developer with two years of experience designing and building dynamic, user-centric web applications. My expertise spans frontend and backend development, creating responsive, visually appealing, and efficient websites. I thrive on solving complex challenges with innovative solutions, ensuring every project delivers both functionality and exceptional user experiences.

Work Experience

Full-Stack Web Developer

Self-Employed | 2022 – Present

- Designed and implemented responsive, modern websites for various clients, ensuring optimal user experience and functionality.
 - Built dynamic e-commerce platforms with intuitive interfaces to drive customer engagement.
 - Developed robust VTU systems that streamline utility bill payments, featuring secure payment integration and efficient transaction handling.
 - Managed end-to-end development cycles, from conceptualization to deployment, meeting client specifications on time and within budget.
 - Developed a SaaS platform designed to help drop shipping entrepreneurs discover trending, high-demand products across wix, etsy, shopify, and woo commerce using a hybrid scraping approach for accurate, real-time insights
-
